

Replacement Diaphragms for Valve Actuators

If you need to replace a worn-out diaphragm on a Johnson Controls valve actuator and do not know the repair code number, all you need to do is find the part number molded on the old diaphragm and refer to the handy cross reference table below.

The cross reference table lists the specific Johnson Controls damper or valve actuator, the corresponding part number molded on the diaphragm for that actuator, and the correct diaphragm repair code number.

Johnson Controls Actuator	Part Number Molded on Old Diaphragm	Diaphragm Repair Code Number
V-3000-1 (Exposed)	10-38460	V-3000-600
V-3000-2 (Enclosed)	10-39605	V-3000-601
V-3800-640	10-39502	V-3100-611
3R Actuator	13737	V-4710-601
4R Actuator	13443	V-4710-602
5R Actuator	13444	V-4710-603
8R Actuator	13777	V-4710-604
