Ice Maker Supply

PurePro Braided Stainless Steel Supply Lines

Configurations available with leading industry connections and lengths for Faucet, Toilet, Dishwasher, Ice-Maker and Washing Machines. These flexible supply lines provide for an easy reliable installation manufactured from corrosion resistant materials. Exclusively designed for the Professional Contractor. Each PurePro product is backed 100% by F.W. Webb.

Features:

- Exceptional flexibility for a kink resistant fast, easy installation
- Reinforced Flexible PVC Inner Tubing, thus allowing burst protection even when the Stainless Jacket is inadvertently exposed to harsh chemicals and compromised.
- Nickel Plated Heavy-duty brass hex nuts included are durable and easy to grip
- 100% Pressure Tested after Assembly and Quality Released by a non-Production QA Inspector

Listings and certifications:

- IPC International Plumbing Code (IPC)
- IAPMO Uniform Plumbing Code (UPC)
- NPCC National Plumbing Code of Canada (NPC)
- Code of Massachusetts Regulation 248 CMR 10.00: Uniform State Plumbing Code
